

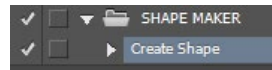

GRAPHIC SPIRIT

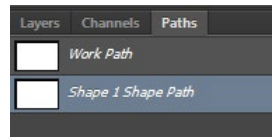

path & shape maker for photoshop

1. install the steps **SHAPE MAKER.atn** (double-click or window> actions> load actions)
2. open or place any graphics or text on the canvas

3. select the layer and run the action **create shape**

4. you get shape on a new layer, and also path (window> path) is the same as the contours of the layer.

5. The higher the resolution of the original picture, the better the shape figure.
