

*Check these instructions before running the action:*

1. Make sure that you are working in RGB 8 bits/Channel Mode.  
Go to Image -> Mode -> RGB Color and 8 Bits/Channel
2. Your photo must be a Background.  
Select your layer and go to Layer -> New -> Background from Layer
3. Your Photoshop must be in English.  
If you do not have an English version of Photoshop, you can use this method to change the language: <https://www.youtube.com/watch?v=7Iz65IeFHzw>

*Install and run the action:*

1. Double click on the .ATN file then action will automatically install in Photoshop.
2. Now go to Window -> Actions OR press on keyboard F9.
3. It will show Actions Panel. Open your photo. Select the action and play it.

*After running the action:*

1. After running the action, Layer Panel will have all the layers.
2. You can change the layer Opacity on top of the Layer Panel. Select the layer and change the Opacity percentage as desired.
3. Click on the eyeball to turn off/on the layer effect.
4. It is good to have good resolution image. You can get the best effect when your image width is 1000px – 2500px. If you have very high/low resolution image then:  
  
Go to Image -> Image Size then set the width 1000px – 2500px. Be sure that the Constrain Proportions is Checked.
6. “Layer Adjustment” folder has some layer adjustment layer. You can add sharpness, softness and noise to the image. If you want to increase/decrease the layer effect, click one of the layers and change the opacity from above of the layer panel.
7. Some layers are smart objects. That means you can also change the effect properties. “Painting Base” folder has main oil paint effect. If you want to increase/decrease any of the effect, double click on the effect option name and change the settings. Make sure preview is checked. Try changing the options, you will get good result. Try out other options too.

**Please rate this item if you like it. It really helps a lot.** If you have any problem with the action please contact me via email.
